

CHAMPION FORK OIL

CHAMPION FORK OIL EXTRA LIGHT

Special liquid for USD (upside-down) forks or cartridges, with specially selected additives to prevent wear, friction, corrosion and foam. Adapted viscosity for all temperatures: 0W 5W.

CHAMPION FORK OIL MEDIUM 5W20

Special liquid for all types of forks, especially for road engines.
Contains selected additives against friction, corrosion and foaming.
CHAMPION FORK OIL LIGHT and HEAVY can be mixed to obtain optimal damping properties.

CHAMPION FORK OIL HEAVY 10W30

Special liquid for all types of forks, especially for trial and motor-cross. Contains selected additives against friction, corrosion and foaming.
CHAMPION FORK OIL LIGHT and HEAVY can be mixed to obtain optimal damping properties.

For specific viscosities, the following mixtures can be used:

	Light	Heavy
5W	1	0
10W	3	1
15W	1	1
20	1	3
30	0	1
