

TWO STROKE AGRI

DESCRIPTION:

This is an outstanding lubricant for two stroke engines, based on synthetic components, which combine a high lubricating power with a minimum of deposits and a very high thermal stability. Prediluted for ease of use. Its special formula reduces the formation of exhaust smoke.

APPLICATIONS:

It can be added by mixing in the gasoline fuel-tank, or by separated lubrication. It was specially developed for the lubrication of two stroke engines of gardening material, chain saws, lawn mowers. For the mixing ratio, always follow the manufacturers' recommendations (average: 3%).
